

OHPBA Website: *Design Center Picture Worksheet*

Send either 4, 10 or 20 pictures (depending on sponsor level). Also, put a check next to one picture to run in the slide show on the front page of the website. If you don't select one, we will choose one.

<i>Brand name</i>	<i>Model #</i>	<i>Type of Appliance¹</i>	<i>Fuel²</i>	<i>Name of file (____.jpg)³</i>
1. _____	_____	_____	_____	_____ .jpg
2. _____	_____	_____	_____	_____ .jpg
3. _____	_____	_____	_____	_____ .jpg

Fax to OHPBA 503-585-8547 and/or mail with CD of images to OHPBA PO Box 135, Salem, OR 97308. Questions? Call 503-371-7457.

¹ **Type of heating appliance:** Free Standing, Insert, Zero Clearance, Gas logs, Other (explain)

² **Type of fuel** (heating appliances or grills): Natural Gas/Propane, Wood, Pellet, Electric, Coal/charcoal, Other

³ Jpeg files should be **“optimized” for web use**. In Adobe Photoshop select “save for web” and set pixels to 500 width maximum. When optimized the file becomes a “gif” file. If this does not sound familiar, don't worry about it because we can do it. However, optimizing makes the file size smaller and makes emailing them easier.
